**City of Ord Proposal to Increase Local Sales and Use Tax Rate**

Shall the governing body of the incorporated municipality - the City of Ord - increase the local sales and use tax rate by an additional one-half of one percent (½%) from the current rate of one and one-half percent (1½%) to a rate of two percent (2%) and impose a sales and use tax at the increased rate upon the same transactions within such municipality on which the State of Nebraska is authorized to impose a tax?

Yes  
 No

A "Yes" Vote: If a majority of the votes cast upon such question shall be in favor of increasing such local sales and use tax rate by an additional one-half of one percent (½%) to a rate of two percent (2%), then the governing body of such incorporated municipality - the City of Ord - shall be empowered as provided by Section 77-27,142 of the Nebraska Revised Statutes and shall forthwith proceed to increase the local sales and use tax rate from one and one-half percent (1½%) to two percent (2%) and impose a sales and use tax at the increased rate upon the same transactions within such municipality on which the State of Nebraska is authorized to impose a tax, pursuant to the Local Option Revenue Act. The revenue provided from the increased sales tax will be used to fund the cost of constructing and improving the City's municipal pool. To the extent the additional local sales and use tax collected is used to fund the cost of the new public swimming pool in the City, increasing the local sales and use tax rate may reduce the amount necessary to be levied against the taxable value of the property located in the city. The new public swimming pool is the only public infrastructure project identified for funding with the increased sales tax. Accordingly, it is anticipated that the increased sales tax will be terminated when the costs of the new public swimming pool (including the bonds issued to fund such costs) have been fully paid.

A "No" Vote: If a majority of those voting on the question shall be opposed to such an increase of the local sales and use tax rate by an additional one-half of one percent (½%), then the governing body of the incorporated municipality shall not impose such a tax increase and the local sales and use tax rate will remain unchanged at one and one-half percent (1½%). The cost of the new public swimming pool in the City would then be funded solely through a property tax levy.

**Additional Information Regarding Proposed Local Sales and Use Tax Rate Increase:**

List of reductions or elimination of other taxes or fees, if any: There is not contemplated at this time to be any elimination of other taxes or fees should a majority of those voting on such question be in favor of increasing the local sales and use tax rate. To the extent the additional local sales and use tax collected is used to fund the cost of the new public swimming pool, increasing the local sales and use tax rate may reduce the amount necessary to be levied against the taxable value of the property located in the city.

Projects to be funded, in whole or in part, from the revenue collected, along with any savings or efficiencies resulting from the projects: Revenues from the increased sales and use tax are to be used for such public infrastructure projects as are allowed pursuant to the Local Option Revenue Act, including, but not limited to, the new public swimming pool constructed in the City.
